Examiner's Statement of Reasons for Allowance

1. Claims 1-7, 9-25, and 27-28 are allowed.
2. The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements:

the steps of, in response to the user selecting the image from the displayed web page directly from the web-browser interface, presenting the image in an editing interface for modification by the user, and saving the modified image as a modified source file on the remote computer replacing a source file of the image as downloaded as recited, or similarly recited, in claims 1, 14 and 22.

The closest prior art, Netscape Communicator 4.61, Prizm Plug-in 2.1, Hoyt et al. and Truong et al., when combined, show a similar method. It is noted that the Hoyt reference discloses the step of capturing a new image, allowing for the image to be modified and saved onto a server. However, Hoyt does not disclose the source to exist on the server prior to being saved, and thus does not update or overwrite a source file on the server. Therefore, all applied prior art fail to anticipate or render the above cited limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
